# Thank You

A big thank you to Dr Liz Pellicano a Researcher in Developmental Cognitive Science at the Centre for Research in Autism and Education (CRAE) at the Institute of Education, University of London who gave a talk to Oak Lodge Staff this week .

Her current research is looking into females on the spectrum and using the views of people with autism themselves to assist in research.

We are continuing to work collaboratively with CRAE and Liz is keen to work holistically with families and teams around the child in the future.

# Important Information
