Barnet CAMHS

is looking for your help to improve its services.

Dear Young People and Parents/Carers,

Would you like to help us with thinking about what would be helpful from CAMHS for young people and families after receiving a diagnosis of Autism/ADHD?

If you have a diagnosis of Autism and/or ADHD or if you are a parent of a child with these diagnoses, we want to find out your thoughts and opinions.

You could join us on the following dates and times on Microsoft Teams:

- For Children and Young People: on the **05/07/2021, 4-5pm**
- For Parents/Carers: on the **06/07/2021, 5-6:30pm**

What would the focus group involve?

- We will ask you about what you think about some of the ideas we have
- We will ask you about what you think is helpful and unhelpful from CAMHS
- You do not have to talk about anything you do not want to
- You do not have to put your camera on if you do not want to

Get in touch with us!

If you have any queries regarding these focus groups, please email Beh-tr.barnetcamhsnd@nhs.net or phone 02087026092.

To register your interest, please email Beh-tr.barnetcamhsnd@nhs.net with the sessions you and/or your child would like to attend.

Post 16 Team Enterprise options have been making cards and soaps with Ms Helen. All products will be taken to The Lodge shop next week.

P4 students worked safely as a team to read and follow written instructions to make bars of soap for Father's Day, their mums, carers and the Lodge

We have been studying a train journey from London Kings Station to York in Yorkshire. We explored York Minster, the famous York City Wall and the factories that make the famous 'Yorkie' chocolate bars. We are now studying the wildlife that we find in Yorkshire's three National Parks! These are the North York Moors, the Yorkshire Dales and the Peak District. We began by looking at the tiny vole. It may be small, but it is very important because it provides food for other forms of wildlife such as the snakes and owls. We then looked at the badger, hazel dormouse and pine marten. We have many more forms of British wildlife to find in all three national parks!
