**Please contact your GP if you would like your child to receive the covid vaccination.**

**Those newly eligible include vulnerable children, aged 12 to 15, with:**

- **severe neurodisability**
- **Down's syndrome**
- **a severely weakened immune system, including some children with cancer**
- **those with profound and multiple learning difficulties.**

**Vulnerable 16 and 17-year-olds were already able to get the vaccine. Those aged 12 to 17 will also be offered a vaccine if they live with somebody with a weak immune system.**

**Teenagers within three months of their 18th birthday will be offered the jab -**

*The decision is based on recommendations from the UK's vaccines experts—the Joint Committee on Vaccination and Immunisation (JCVI).*

A student in Class 8 is passionate about Scotland! She adores the Scottish wild cat, the highland cow and the tartan kilt! Well done Class 8 for all your enthusiasm during our 'journey' lessons to Scotland!

We took a journey by bus to the most northerly tip of The Shetland Isles. We visited an island called Muckle Flugga which is the most northerly tip of Britain. It has a lighthouse and it is the home of thousands of gannets. We met basking sharks, bottlenose dolphins, puffins, seals and the famous Shetland pony too!

The 'queen' of badges this year is a young lady in Class 5! She takes great delight in earning herself a badge in her 'Journey' lesson and wearing her badges!

The Lodge shop is looking very 'summery' now with a wonderful array of gifts, cards, flowers and plants! Please drop by soon!

**Hair and Beauty Option: P1** young gentlemen enjoyed 'having a go' at hair styling too; very impressive!

We are sad to say 'good bye' to one of our leavers who is a lover of birds. He particularly loved learning about the pheasants that live in Scotland.
