Parents' guide to summer exams 2020

Dear Parents/Carers

This year we did not send out any Statement of Entries to parents of students who were due to take Entry Level qualifications in any subject. This is because the examinations were cancelled.

Additionally, students have not been entered for Functional Skills Maths and English, as it was just too difficult to submit a teacher assessed grade given recent changes to the course. We have found the changes have made this qualification inaccessible for an increasing number of our students.

We did however, send notification to parents for 5 students who were entered for GCSE Art and Design; Photography.

The results for this award are derived from Centre Assessment grades and the rank orders provided to the exam board. The results for this qualification are published on **20th August 2020**.

Our aim is to enable any Entry Level/ GCSE students continue their program of study next academic year, to give them the best chance of achieving an award.

We will inform all parents how students in Key Stage 4 will resume their studies once we return in September, as we will be more aware of the timeline for submitting entries for re-assessment.

Kind Regards

Ginny D'Odorico
Deputy Headteacher (Teaching and Learning)

Esther Pearsall
Assistant Headteacher (14-19)
