Class 9 went to London Zoo to meet Santa in his grotto. He showed us his big globe and pointed out where the animals at London Zoo come from.

We were invited by an elf to open door number one on the advent calendar. We found a tiger inside and then went off to find a real tiger. We also saw penguins who were enjoying the weather! It was a very cold, frosty day but we warmed up in the rainforest where we saw mum and dad cloths and their baby called Nova. Well done all members of Class 9 who braved the cold and still had a great day!

In a momentous celebration of artistic talent and community recognition, we are thrilled to declare that a standout student from our KS3 cohort has emerged victorious in the highly esteemed Christmas card design competition organized by local Member of Parliament, Mr. Mike Freer. Mr. Freer himself grace the premises of Oak Lodge to present the well-deserved accolade—a prize and certificate—to the exceptionally gifted winner.

Post-16 students have delved into the art of crafting double exposure images centred around their unique identities. Mastering a digital editing application, they skilfully brought forth a collection of captivating and visually stunning compositions.
